

How to use CV Miles effectively in Home Care

Training Summary:

CV Miles is a licensed feature in CareVoyant that allows for verification of patient, employee, provider, and facility addresses, tracking of geo codes and automatic mileage and travel time calculation. This class will review the setup option for the module and the how to effectively use it. It's appropriate for business office staff that will be configuring and using the module.

If your company has not purchased the CV Miles module, you may still attend the class as it is a great opportunity to do an in-depth evaluation of the functionality for a small investment.

Pre-requisites

- Attendees must be familiar with the CareVoyant solution and with current practices/processes within the application.
